INDEX

Centrifugal pumps, peripheral speed, 667
  Rateau, 643
  slightly, 668
  & size for given discharge, 668
  & speed for lifting to commence, 667
  & suction and delivery pipes, 645
  & Sulzer, 640
  & theory of, 646
  & volute chamber, 633
  & whirlpool chamber, 634, 645, 663
  Washington, 637, 644
Change of level produced by boat, 328
  piers, 326
Channel circular, 301
  flow through open, 289
  general equations of flow, 307
  most suitable form of, 298
  of constant mean velocity, 302
  rectangular, 299
  trapezoidal, 299
  with horizontal bed, 325
Chevy, 196, 290
Cippeletti, 156
Circular pipe, viscous flow through, 68
  orifice, 130
Coal hoists, 757
Coefficient of contraction, 104, 110
  & discharge, 104, 110
  & velocity, 104, 108
  & viscosity, 11
Cohesion, 5
Coker, E. G., 13, 54
Compounding of jets, 383
  confined streams, 384
Compound pumps, 653
  turbines, 659
Compressibility of water, 3
Contraction of area, 93
Contraction, suppressed, 106
Converging channels, 79
Crane, hydraulic, 750
Crane valves, 760
  Critical velocity, 51
  in open channel, 257
Cunningham, Captain, 358
Current meters, 350
  rating of, 355
Curved weir, 147
Cylinders, strength of thick, 68

D'Alembert, 2
Dams, effect on water level, 318
Darcy, 2, 195, 211, 290
Davis, G. J., 257
D'Aubuisson, 196, 322
Deep well pumps, 590
Delivery pipes for centrifugal pump, 645
Design of centrifugal pumps, 674
  & head and tail races, 527
  Diffuser for turbine, 477
  ring for centrifugal pump, 636, 655, 664
Disc friction, 179
Discharge from pipes, measurement of, 247
  variations in with diameter, 221
  open channel, 289
Displacement curves, for reciprocating pumps, 652
Distribution of velocity in pipes, 211
  open channels, 332
  water, 269
Divergent pipes, loss in, 84
Dock cranes, 753
Dock gate machinery, 775
Draught tubes, 423
Dubut, 343
Dufour, 6
Dynamometer, hydraulic, 792

E.

Eddy formation, reason for, 70
Elasticity of water, 4
  & suction column of pump, 615
  effect of, on water hammer pressure, 294
Enlargement of section, 82
Equations of motion for a viscous fluid, 58
Equilibrium of floating bodies, 82
Equivalent diameter of uniform main, 262
Erosive power of water, 348
Eulerian equations of motion, 58
