LIST OF MONOGRAPHS

This list includes only those published and in course of preparation, and may be changed from time to time. The monographs fall into two main classes, those which may be said to constitute full numbers in the series, volumes of from 300 to 500 pages; and partial numbers or special studies of approximately 100 pages or less, which may ultimately be incorporated in a full volume along with others dealing with cognate subjects. Titles have been grouped to indicate the proposed volume arrangement, but this grouping cannot be regarded as final in the larger and more complicated series. It is the intention, however, to keep to the total number of volumes indicated. Separate announcements will be made concerning volumes dealing with countries outside Europe.

Monographs already published are indicated by an asterisk, partial numbers by a double asterisk.
