THE CATHEDRAL BUILDERS IN ENGLAND

By EDWARD S. PRIOR, M.A., F.S.A.

In this volume Mr Prior treats of the Great English Mediæval Cathedrals, with special reference to the men by whom they were designed, and the craftsmen by whom they were erected. He thus characterizes the successive periods of Cathedral building in England:

1. Norman, Benedictine, "Romanesque."
2. Angevin, Neomonic, "Transitional to Gothic."
3. Insular, Episcopal, "Early English."
5. English, Aristocratic, "Decorated."
6. After the Black Death: Official, "Perpendicular."

THE PEEL COLLECTION
AND THE
DUTCH SCHOOL OF PAINTING

By SIR WALTER ARMSTRONG

The Peel Collection in the National Gallery is chiefly famous for its fine group of works by the Dutch painters of the Seventeenth Century (excluding Rembrandt and his followers). It is with these artists that Sir Walter Armstrong’s monograph deals.

"Vastly interesting to read . . . charmingly illustrated."—Academy.
"A model of what such a study should be."—Standard.

"If ever the publication of a book was well timed, surely it is the case with this book on aviation. . . . Of the technical chapters we need only say that they are so simply written as to present no grave difficulties to the beginner who is equipped with an average education."—Globe.

"This most entertaining and instructive book. It is the fruit of wide reading and much patient industry."—Globe.

"As a knowledgeable writer, gifted with the power of imparting what he knows in a manner intelligible to all, Mr. C. R. Gibson has established a well-deserved reputation."—Field.

"A lucid exposition much helped by abundant illustrations."—The Times.

"From cover to cover the book is readable, and every word is intelligible to the layman. Dr. Dolmage displays literary powers of a very high order. Those who read it without any previous knowledge of astronomy will find that a new interest has been added to their lives, and that in a matter of 350 pages they have gained a true conception of the meaning of astronomy."—The Standard.

"Mr. Gibson has given us one of the best examples of popular scientific exposition that we remember seeing. His aim has been to produce an account of the chief modern applications of electricity without using technical language or making any statements which are beyond the comprehension of any reader of ordinary intelligence. In this he has succeeded to admiration, and his book may be strongly commended to all who wish to realise what electricity means and does in our daily life."—The Tribune.

A TRANSFORMED COLONY
SIERRA LEONE

AS IT WAS, AND AS IT IS, ITS PROGRESS, PEOPLES, NATIVE CUSTOMS, AND UNDEVELOPED WEALTH

BY T. J. ALDLRIDGE, I.S.O., F.R.G.S.

Formerly Travelling Commissioner in the Upper Mendi Country and for many years District Commissioner of the Sherbro in the Crown Colony of Sierra Leone
Author of "The Sherbro and its Hinterland"

With Sixty-six Illustrations and a Map. Demy 8vo. 16s. net.

Mr. ALDLRIDGE is one of very few who saw the colony emerge from the darkness of barbarism, and knew its peoples intimately in their primitive state. This renders his record particularly valuable, as he is able to describe with great minuteness many habits and customs now long past, and his description of the secret societies is extremely interesting.

He did pioneer work in opening up and mapping out the far distant and unknown parts of the Hinterland. He tells us of the causes which led to the forming of the Protectorate, and on behalf of the Government made many treaties with powerful chiefs whose names are known to history. So far from deserving the opprobrium under which it so long laboured, the author paints an exceedingly fair land, the salubrity of which will yield to few other places, and says that the natural resources of the country are such that with some energy and a little capital to develop them, the colony might be rendered one of the richest dependencies of the Crown.

The photographs taken by the author himself are of a delightfully varied character, and illustrate every subject on which he touches.

TO ABYSSINIA THROUGH AN UNKNOWN LAND

AN ACCOUNT OF A JOURNEY THROUGH UNEXPLORED REGIONS OF BRITISH EAST AFRICA AND THE LAKE RUDOLF TO THE KINGDOM OF MENELIK

BY CAPTAIN C. H. STIGAND, F.R.G.S., F.Z.S.

West Kent Regiment

With 36 Illustrations and a Map. Demy 8vo. 16s. net.

Captain Stigand is an explorer, big-game hunter, and a naturalist, and his experiences and adventures on his journey through the unexplored regions from Gilgil south of Lake Rudolf to Addis Ababa in Abyssinia form a book of intense interest. He faced many dangers both from wild beasts and human beings, but perhaps the greatest of all was the danger of not finding water. He and his band of natives, who were his only companions, tramped for days under a broiling sun over arid plains, through ankle-deep dust or broken lava with the smallest possible allowance of water to cool their parched throats at the end of each day. Much of the ground covered had never before been trodden by the foot of any white man, and, owing to the lack of water, was emphatically declared by earlier explorers and the natives to be impassable.

His tact and firmness kept together his band of porters, and conciliated the natives, and intending travellers in the wilds of Africa could not do better than adopt some of his methods in this respect. It is worthy of note that this judicious handling of his men so inspired them with confidence, that from being a timorous and insubordinate crew, they became his devoted followers ready to encounter any danger which he himself was willing to face.

The book is authoritative and informative, and the author's sense of humour makes it extremely pleasant reading. The photographs are beyond question perfectly unique, and possess the merit, so rare in the case of books of travel, of illustrating the text.

THE ROMANCE OF MODERN PHOTOGRAPHY
ITS DISCOVERY & ITS ACHIEVEMENTS

BY C. R. GIBSON
AUTHOR OF "ELECTRICITY OF TO-DAY," ETC.

"Mr. Gibson tells the romantic story of the discovery of this wonderful art, and the steps by which its range has been extended, until it can achieve results which only a few years ago would have been thought impossible."—Newcastle Chronicle.

"The explanation of the complicated system of photographing in colours is particularly lucid, and, indeed, the narrative is everywhere remarkable for its fluency and clear style."—Bystander.

"Should prove one of the most popular and fascinating of this writer's books, and will interest all who are connected with photography."—The Photographic Monthly.

"A fascinating story of triumphs of thought and patience, and illustrated with remarkable photographs."—Church Times.

"The author has made his book remarkably comprehensive, while there is not a dry or uninteresting page throughout."—Country Life.
