### INDEX

*The numbers refer to pages of this book*

#### A

- Administration of irrigation works 281
- Agriculture, Indian 18
- Agriculture in Gujarat and Maharashtra States 20
- Air-lift pump 257
- Alignment of irrigation channels 171
- Aqueduct 190
- Arch dams, single and multiple 98
- Archimedean screw 252
- Assessment, irrigation 284

#### B

- Bandhara irrigation 259
  - form and design of 260
  - irrigation, advantages and disadvantages of 265
  - site of 259
- Basin, lake 53
- Baulk shutter 219
- Belgaum type outlet 127
- Bligh's creep theory 152
- Block system of irrigation 286

#### C

- Canal losses 175
- Capacity of lake 53
  - transporting computing 56
- Centrifugal pump 255
- Chain pump 253
- Composite rate 286
- Crop rate 285
- seasons in Bombay-Deccan 25
- Cross drainage works 189
  - regulator 201
- Culvert, irrigation 192
- Cut off 72, 153

#### D

- Dam, choice of the kind of 59
  - construction, materials used for 65
  - , gravity 65
  - , height of 57
  - , kinds of 58
  - , low or high 66
  - , masonry and concrete 65
  - , overflow 78
  - , site of 57
  - , theoretical and practical profiles of 66
- Definitions 1,31
- Delta for some crops 25
- Design of irrigation channels 176
- Development of irrigation 2
- Dharwar type outlet 127
- Diversion weir, alignment of 145
  - parts of 148
  - , site for 144
  - , types of 145
- Doon 253
- Drainage project, preparation of 299
  - , subsurface 297
- Duty and Delta 20
  - , relationship between 24
  - , factors affecting 23
  - , figures, importance of 24

#### E

- Earth dam 108
  - , construction of 116
  - , design of 112
  - , drainage of 114
  - , failure of 119
  - , kinds of 108
  - , lake outlets in case of 124
  - , spillway for 121
- Earth dam versus Gravity dam 127
- Economy of irrigation water 282
- Escape, canal 205
INDEX

F
Fall, canal 202
Fish ladder 96, 162
Flood absorbing capacity
of lake 59
Flood control 304, 313
Flood, routing of 317
Flow off 32
Formula for maximum
flow off 41
Foundation bed of dam 78
Full supply discharge of
irrigation channels 173

G
Ganesh Iyer siphon spillway 92
Gate, drum 84
—, fixed roller 81
Gates for spillway, types of 63
Gate hoist 63
—, Reinold’s automatic 85
—, Stoney 82
—, Taintor 83
—, Visvesvaraya’s automatic 87
Gates, waste weir 63
Gauging stream flow 36
Gibb’s module 212

H
Head regulator 164, 199
—, water control 61
—, works, diversion 142
—, storage 51
—, weir 141
Hydraulic fill dam 135
Hydroelectric power
generation 327
Hydrograph 46
Hydrology 27
Hydro isobaths 302

I
Indian rainfall, characteristics of 31
Inlet 197
Inundation canal, head of 267
—, irrigation 266
— —, advantages and
disadvantages of 270
Irrigation, advantages of 6
—, direct 12
—, disadvantages of 7
—, engineering scope of 9
—, mode of 276
—, necessity of 5
—, assessment 284
—, schemes, miscellaneous 16
—, scope of 12
—, storage 15
—, types of 8
—, water, sources of 27
Irrigation projects, classification of 354
—, —, investigation of 355
—, works, operation and
maintenance of 281
—, —, photos of 372
Isolines of India 32

J
Jung Bahadur flood formula 43

K
Karez 236
Kennedy’s silt theory 180
Khosla’s theory for design
of weirs on permeable
foundations 156

L
Lacey’s silt theory 180
Land 6
Lath 249
Level crossing 196
Lifting irrigation water,
methods of 248
Line of first strong flow 302
Lining, canal 184
Log chute 97
Losses of water in lake  54
— — — irrigation channels  175

M

Malaria control  348
Masonry works across irrigation channels  189
Maximum rate of run-off  40
Metric system of units  370
Modules  210
Mote  250
Movable weir crests  163
Murrum isobaths  302
Multipurpose river valley projects  363
— — — economic planning of  363
— — — design principles of  366
— — — in India  368

N

Navigation canals, requirements of  322
—, inland  320
Navigable inland waterways  321
Navigation works  323
Needle shutter  218

O

Objects of river training  341
Optimum water supply  275
Outlet, irrigation  208
—, surface  197
Overflow dam, design of downstream face of  80
— — — profile of  80

P

Persian wheel  251
Phad system of irrigation  264
Photographs of models of irrigation structures  372
Pickup weir  221
— — — stability of  222
Preparation of raw land for irrigation  275
Projects, irrigation  287, 353
—, multipurpose  363
Project report  358

R

Rainfall and Runoff  27
Rain gauges  28
Rapid  229
Rate, composite  286
—, crop  285
—, seasonal  286
—, volumetric  285
Reclamation, land  290
— of salt-affected land  291
Regulation works  198
Reinforced concrete dam  130
Rivers, types of  338
River training  338
— — — objects of  341
— — — works  341
Rock fill dam  133
Routing of floods  317
Runoff, average annual  33

S

Salinity in well water  247
Salt efflorescence  290
Saturation gradient  110
Seasonal rate  286
Sedimentation in lakes  55
Shaft spillway  103
Silt ing and scour in irrigation channels  183
Silt regulation at head works  168
Siphon (inverted), canal  196
Siphon spillway, saddle  90
— — — volute  92
Slab and buttress dam  130
Soils, alluvial and nonalluvial  11
Soil conservation  304, 307
— erosion, causes of  304
