DISEASES OF THE RESPIRATORY ORGANS

Diseases of the Lungs—

Bronchitis. Dr. Wm. Ewart

Bronchiectasis. Dr. Wm. Ewart

Pneumonia [including Cirrhosis and other Indurations, and Broncho-pneumonia of Children]. Dr. P. H. Pyc Smith

Pithosis Pulmonalis. Dr. Percy Kidd

Pneumoconiosis. Dr. J. T. Araldge

Pulmonary Aspergillosis. Dr. Rolleston

Emphysema of the Lungs. Dr. Kingston Fowler

Asthma and Hay Fever. Dr. James F. Goodhart

Syphilis. Disease of the Lungs. Dr. Kingston Fowler

DISEASES OF THE PLEURA

Intrapleural Tension. Dr. Samuel West

Pleurisy. Dr. Gee and Dr. Hellingham

Pneumothorax. Dr. D. W. Finlay

DISEASES OF THE CIRCULATORY SYSTEM

General Features of the Blood. Prof. Michael Foster

Methods of Clinical Examination of the Blood. Dr. Monckton Cope

Cardiac Physics. Prof. Sherrington

Chlorosis. Prof. Allbutt

Pernicious Anæmia. Dr. Sidney Coupland

Spleenic Anæmia. Dr. Samuel West
Hæmophilia. Dr. Wickham Legg .......................... 548
Hæmorrhages in New-born Children. Dr. John Thomson .......................... 556
Purpura. Dr. Stephen MacKenzie ........................................ 588
Scurvy. Mr. W. Johnson Smith ........................................ 586
Infantile Scurvy. Dr. Chealde ........................................ 604
Hæmoglobinuria. Dr. S. Monckton Copejun ........................................ 621
Leucocytæmia. Dr. Robert Muir ........................................ 635
Dropsy. Dr. Dickinson ........................................ 666

Heart Diseases—

Congenital Malformation of the Heart. Dr. Laurence Humphry ........................................ 697
Diseases of the Pericardium. Dr. F. T. Roberts ........................................ 726
Functional Disorders of the Heart. Prof. Allbutt ........................................ 807
Mechanical Strain of the Heart. Prof. Allbutt ........................................ 841
Injuries by Electric Currents of High Pressure. Dr. Thomas Oliver ........................................ 855
Endocarditis. Prof. Droschfeld ........................................ 860
Diseases of the Myocardium. Sir R. Douglas Powell ........................................ 885
Chronic Valvular Diseases—

Disease of the Aortic Area of the Heart. Prof. Allbutt ........................................ 907
Diseases of the Mitral Valve. Dr. Ernest Sansom ........................................ 908

In order to avoid frequent interruption of the text, the Editor has only inserted the numbers indicative of items in the lists of "References" in cases of emphasis, where two or more references to one author are in the list, where an author is quoted from a work published under another name, or where an authoritative statement is made without mention of the author's name. In ordinary cases an author's name is a sufficient indication of the corresponding item in the list.
